User's Manual

Vidonn™ Smartband X6

Thank you for choosing Vidonn™ Smartband which features advanced design and technology skills, provides more better help and enjoyment for your daily activities and sports to create a more healthier life for you. This manual is a brief introduction of smartband functions & features.

Getting started

Download the Vidonn™ app:

A. Search in AppStore or GooglePlay for "Vidonn", then download and install with your smartphone;

B. Official website: http://www.vidonn.com/download.html;

C. Scan two-dimension code:

iOS app   Android apk

***Remark: due to the built-in shield of WeChat explorer, WeChat scanning is not supported!**

Charging Smartband

Contact the wire end with magnetic points onto Smartband bottom pins, plug the other end with standard 5V/2A USB into power source to fully charge the Smartband for a few hours before using.

Note: if cannot attach to bottom pins exactly just turn the contact direction around!
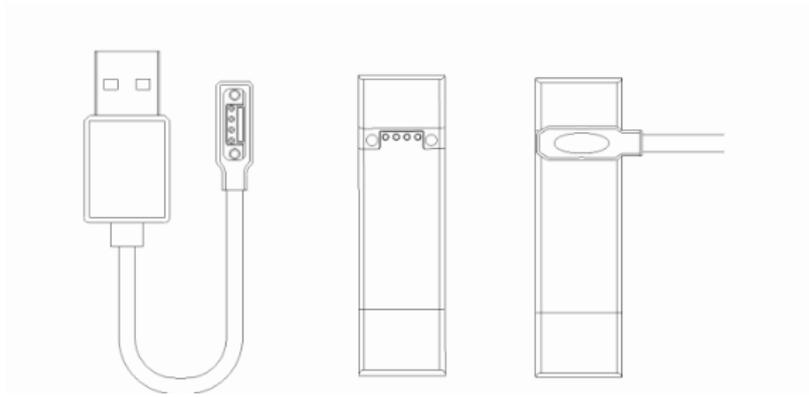

Pair with iOS® Device

1. Make sure your device's Bluetooth is on.
2. Make sure your smartphone's Bluetooth is on.
