# Fix Eachine DSF3_EVO_BRUSHED FC binding isuse

Some New release DSMX Version Eachine DSF3_EVO_BRUSHED FC has a binding problem with Remote controller, type the binding code on the CLI command of Cleanflight/Betaflight ,but the orange led no response.

Please following the steps below:

2. Solder the two pins with electric soldering iron

Re-type the binding code on the CLI when you finished these two steps and you will find the orange LED starting to blinking ,now you can binding it with your Remote controller.
